

Developing a website for your business and budget

**Wed August 11th , 6.00pm —9.00 pm, Wycheproof resource Centre
Cost \$15.00 — refreshments and workbooks included**

**Do you want to stand out?
Want a website but don't know where to start?**

The **Developing a Website** seminar is designed to assist you when planning and designing a website that will stand out amongst the rest.

You will have the opportunity to work with a professional website designer to develop a concise design brief for your site. You will also develop a basic site map and structure the content for your website.

Tim Gentle, head facilitator/trainer and Managing Director of Design Experts has delivered close to 100eBusiness / Internet workshops and worked one-on-one with close to 300 small businesses.

You will learn about registering a domain name, website hosting, the types of website development software available, e-marketing and the importance of maintaining your website.

Complete the registration details overleaf
